Project: Garage Door Opener - Repair or Adjust

"It is rare that a service call for an unexpected repair is as easy and well performed as this one. Orlando did a fantastic job. I spoke with him at 3pm and my garage door was fixed and working better than before it had broken by 5:30pm. What else can you ask for but quick quality service for a low price? Plus, he was a very nice guy who didn't mind being watched by my 18 month old son who was very curious. He talked and gave me his background and explained everything he was going to do. Great guy. I could not be more enthusiastic in my recommendation. A+"

Project: Garage Door - Repair

"Orlando was GREAT! He was punctual, responsive, courteous, neat, and fast, with great prices, too. We were having a repair done and the section we had ordered was the wrong size. He was able to deal with this mistake (one we had made) by making some adjustments and still charged us the quoted price with only a slight charge for the extra hardware. He even took the time to explain exactly what he did. I offered to give him a tip which he refused and told me to just spread the word of mouth which I plan on doing. I would DEFINITELY refer him to anyone needing work on their garage who wants great service at a great price with no surprises. "
